Subject Index, 1996

A

abattoir condemnations
  association with cellulitis lesions 690
  chicken management and cellulitis 699
abdominal skin scratches
  impact of stocking density, breed and feathering 546
ACTH (see adrenocorticotrophic hormone)
adhesion
  of *Pasteurella multocida* to air sac macrophages 887
adenovirus hepatitis
  rapid diagnosis using DNA *in situ* hybridization 828
adenovirus pancreatitis
  rapid diagnosis using DNA *in situ* hybridization 828
adherence
  of *Escherichia coli* serotype 01 strains 540
Adrenocorticotrophic hormone
  stimulation of the pituitary-adrenocortical axis in pigeons 453
air sac membranes
  membrane microscopy technique 729
American robin
  case report of osteosarcoma in the left hemimandible 938
amino acid sequence
  at the hemagglutinin cleavage site 425
  of avian influenza viruses 425
analysis of plasmids
  of *Escherichia coli* 533, 927
antibody
  humoral responses and body weights in chickens 634
  survey for antibody against chicken infectious anemia virus 358
antigenicity
  characterization of infectious bursal disease virus 588
  host influence on infectious bursal disease virus 553
  in vitro attenuation of infectious bursal disease virus 501
apoptosis
  induced by infectious bursal disease virus 109
arenavirus-like particles
  experimental reproduction of severe hypoglycemia and spiking mortality syndrome 158
arginine vasopressin (AVP)
  responsiveness of the pituitary-adrenocortical axis in pigeons 453
arthritis
  and osteomyelitis in turkeys 661
  concomitant *Ornithobacterium rhinotracheale* and Newcastle disease 488
ascites
  effect of dietary and photoperiod regimes on 788
Aspergillus fumigatus
  histopathology of 875
attenuation
  of infectious bursal disease virus 501, 567
avian
  stimulation of the suppressed pituitary-adrenocortical axis in pigeons 312
  surgical correction of ileus in a macaw 484
avian adenovirus group II
  response and susceptibility of pheasants to marble spleen disease virus 306
avian adenovirus hepatitis
  rapid diagnosis using DNA *in situ* hybridization 828
avian colibacillosis

inoculation into testis to produce transgenic chickens 841
RNA amplification
in infectious bursal disease virus 457

runting
Cochlosoma anatis in ducklings 181
rVP2
potential use of as a recombinant vaccine for chickens 753

S

salinomycin
effect on performance, shank pigmentation and coccidial lesions in broilers 68
Salmonella
heat destruction in poultry feed 72
Salmonella enteritidis
ability of phage type 4 to invade internal organs 853
contamination studies of three broiler breeder houses 626
disinfectants against 272
effect of *Eimeria tenella* infection on contaminated eggs 361
in sewage effluent 672
phage type 4 infection in commercial layers 665
Salmonella typhimurium
effect of bacterial surface structures 28
effect of cecal bacteria on 391
effect of Ochratoxin A on 924
salmonellosis
immune lymphokine in turkeys and chickens 186
selection
antibody responses and body weights in selected chickens 634
semduramicin
effect on performance, shank pigmentation and coccidial lesions in broilers 68
septicemia
colibacillosis in commercial layers 742
serologic survey
of antibody to chicken infectious anemia virus 358
serology
testing for *Mycoplasma synoviae* 798
severe respiratory symptoms
concomitant *Ornithobacterium rhinotracheale* and Newcastle disease 488
sewage effluent
likely source of *Salmonella enteritidis* 672
sheep red blood cells
antibody responses and body weights in responsive chickens 634
sinus swabs
DNA tests for *Haemophilus paragallinarum* 398
sinusitis
reproduction of *Mycoplasma gallisepticum* disease in chukar partridges 408
species specific
monoclonal antibodies specific to *Mycoplasma iowae* 613
sperm
viral DNA presence in 841
split-off vaccine
Tween 80-solubilized Newcastle disease virus as a vaccine 193
sporozoites
enhancement of invasion by 783
spotted fever group rickettsiae
serosurvey for poultry pathogens in ostriches 448
Staphylococcus
isolated from proximal tibiotarsal infarcts in turkeys 807
Staphylococcus aureus
phagocytosis of fluorescein-labeled bacteria by chicken heterophils 778
stocking density
impact on prevalence of abdominal skin scratches 546
Struthio camelus
serosurvey for poultry pathogens in ostriches 448
survey
Mycoplasma gallisepticum in house finches 335
susceptibility
Eimeria tenella, Salmonella enteritidis-contaminated eggs 361
synovitis
associated with *Escherichia coli* in turkeys 417

T

temperature sensitivity
attenuation of Newcastle disease virus by cold adaptation 605
tetrahydrofuran
evaluated as a vehicle for introducing caratenoids to cells 823
potential mitogen for bursal lymphocytes 823
THF *(See tetrahydrofuran)*
tibial dyschondroplasia
chondroitin-6 sulfate in chickens with high and low genetic predispositions 88
Fusarium oxysporum induction affects plasma glycosaminoglycans 715
tilmicosin
compared with tylosis for *Mycoplasma gallisepticum* and *Mycoplasma synoviae* 326
titration
comparison of methods for infectious bursal disease virus 562
toxicosis
of copper sulfate in layers 236
transgenic chickens
production of 841
transmission
of infection genetically 841
Trichomonas gallinae
lysis of erythrocytes 228
tuberculosis
in hooded mergansers 941
Turdis migratorius

osteosarcoma arising from the left hemimandible 938
turkeys
arthritis and osteomyelitis in 661
California national animal health monitoring system for 278
effects of *Fusarium moniliforme* culture material containing fumonisin B_1 231
efficacy of *Salmonella enteritidis*-immune lymphokines on SE liver invasion in poults 186
hepatic foci found in flock survey 466
histopathology of *Aspergillus fumigatus* in 875
influence of chicken breed on pathogenicity evaluation of velogenic neurotropic Newcastle disease virus 210
intestinal epithelial cells, primary cell culture of 103
mortality due to cellulitis 736
Ornithobacterium rhinotracheale in breeder flocks 865
pathology of *Ornithobacterium rhinotracheale* 858
predecessors to colibacillosis in the field 837
proximal tibiotarsal infarcts 807
synovitis, osteomyelitis and green liver associated with *Escherichia coli* 417
ultrasound for detecting osteomyelitis in 321
tylosin
compared with tilmicosin for *Mycoplasma gallisepticum* and *Mycoplasma synoviae* 326

U

ultrasound
for detection of osteomyelitis in turkeys 321
ultrastructural lesions
avian polyomavirus glomerulopathy in parrots 140
ultrastructure
pathology of *Clostridium perfringens* enterotoxemia 720

V

vaccination
Pasteurella multocida challenge in Northern bobwhites 99
vaccine and virulent strains
genomic short regions of infectious laryngotracheitis virus 130
vaccine candidates
evaluation of fowl pox vaccines 582
evaluation of quail pox vaccine against variant strains of poxvirus 792
variant poxvirus isolates
evaluation of fowl pox vaccines 582
velogenic challenge
recombinant Newcastle disease virus vaccine candidate 173
viral tenosynovitis
monoclonal antibodies against avian reovirus 349
virulence factors
analysis of *Escherichia coli* plasmids 533
virus attenuation
cold adaptation of Newcastle disease virus 605
virus clones
IBDV small plaque and large plaque clones 832
VP2
used as vaccine 753

W

water-in-oil-in-water vaccine
Tween 80-solubilized Newcastle disease virus as a vaccine 193
waterfowl
Cochlosoma anatis in ducklings 181

Z

zoo aviary
avian tuberculosis in hooded mergansers 941
